

ABRASIVE AND POLISHING HARD WAXES KENDA FARBEN - Italy

Name	Features	Colour-code	Application
1. ABRASIVA	It smooths and closes the leather grain to get a BRUSH-OFF effect. Also removes the dark film, letting the color of the leather appear.	32815 colorless 32816 black 328250 colorless	Cloth brush (800 - 1200 r.p.m.).
2. ABRALUX	It smooths and closes the leather grain. On vegetable and buffalo leather it gives a brush-off and dark-light effect making it easier to be worked.	32800 colorless 32810 black 32818 brown 32840 dark black	Cloth brush (800-1200 r.p.m.).
3. SUPERLUX	SUPERLUX is an abrasive wax that gives a special polish effect with specific features for smoothing and softening the leather uppers. It does not spoil former applications of creams or polishes.	328400 colorless 328410 black	Cloth brush (800 - 1200 r.p.m.).
4. BRAWAX	It gives an antique/burnished looking to the leather, closing and polishing the grain.	32850 colorless 328300 colorless 328301 black 328302 brown	Cloth brush (800 - 1200 r.p.m.).
5. WAXLINE	By a sole brushing operation it dyes and colors in a covering way, giving a bright glossy looking. It gives a spotted/antique effect to the leather, closing and polishing the grain.	32880 black 32881 brown 32882 dark brown	Cloth brush (700 - 800 r.p.m.).
6. CARNAUBA	It polishes, giving high brightness with a silky and smooth touch.	32804 colorless 32817 black	Woolen brush (RECOMMENDED 800 r.p.m.).
7. CARNAUBA FIORES	Self-polishing, it eases the finishing operations. It fills in the pores, giving full-bodied effect and glossy to the finished piece.	32806 yellow	Woollen brush (RECOMMENDED 800 r.p.m.).
